

JOB DESCRIPTION	
Job Title / Researcher Profile	Senior Lab Research Assistant
Job Code	<b>GREC_Senior LabTech 01_032023</b>
Full/part Time	Full-time dedication
Field of work	The current scientific interests of our group focus on characterizing <u>viral immunopathogenesis of human diseases</u> , including HIV-1, SARS-CoV-2, RSV, EBOV and LASV. We investigate novel biomarkers during immune response and test therapeutic agents in the context of different diseases. The group is composed by an interdisciplinary, motivated and creative scientific team which is supported by innovative technologies.
Direct Supervisor	ICREA Res. Prof. <a href="#">J Martínez-Picado</a> , Head of the Retrovirology and Clinical Studies Lab
Offer / Job Duties	We are looking for an enthusiastic and motivated senior research assistant to join the <a href="#">Retrovirology and Clinical Studies Lab</a> at the IrsiCaixa AIDS Research Institute located at Biomedical Campus Can Ruti in Badalona (Barcelona). The selected candidate will support ongoing scientific projects implementing new protocols and techniques to investigate endocytic mechanisms used by viruses, especially in primary cell systems. The candidate will contribute to investigate biodistribution and activity of therapeutic agents. The candidate will need to work in Biosafety level 3 (BSL3) facilities.
Minimum Qualification	BSc or MSc in Biology or a related discipline is recommended
Candidate profile	<ul style="list-style-type: none"> <li>• Experience in <u>flow cytometry, primary cell culture, cellular and molecular biology techniques</u></li> <li>• Experience in supporting scientific teams, for at least 5 years</li> <li>• Good organizational skills: tracking project data and report analysis results</li> <li>• Certificate and experience working with animal models will be valued</li> <li>• Interest in imaging techniques and implementing new tools</li> <li>• Ability to work in a dynamic and international environment with good interpersonal skills</li> <li>• Excellent written and oral communication skills</li> </ul>
We offer	<ul style="list-style-type: none"> <li>• An international collaborative research environment</li> <li>• Impactful, innovative and interdisciplinary research projects</li> <li>• Mixed basic and clinical research environment in Biomedicine</li> <li>• State-of-the-Art infrastructure and pleasant spaces for work and free time</li> <li>• Salary commensurate to research qualification and innovation ability</li> </ul>
Required Languages	English
Deadline for Application	Open until the position is covered.
Selection Process	<u>Pre-selection</u> : It will be based on CV, academic record, and motivation letter. <u>Interviews</u> : Short-listed candidates will be interviewed. <u>Offered Position</u> : Job will be offered to the successful candidate after the interview.
Indicative Starting Date	Immediate
